I. Program Purpose
The purpose of the Program is to address the unmet needs of Public First Responders caused by a reduction in revenue received from ad valorem taxes following the reassessment of properties in the aftermath of the 2016 floods. This Program will provide grants for operational assistance necessary for Eligible First Responders to provide the level of services that were projected to be provided and/or were provided before the Great Floods of 2016.

It is anticipated that applications will be received from a variety of Public First Responder agencies and units of local government that are dependent upon ad valorem tax revenue within the ten most impacted parishes and that multiple respondents will be approved to receive grant funds through this Program.

This Notice of Funding Availability solicits information about a Respondent’s pre-storm operations, projected budgeted operations for FY2017 that were negatively affected, current operations, existing capacity and proposed methodology for expending funds received through the Program. OCD-DRU will work with each Public First Responder to incorporate components of its application into a Cooperative Endeavor Agreement, but reserves the right to require the submission of modifications or additions to applications before any such agreement is finalized.
